PUNCAK- In a heartfelt gesture of service, the Infantry Battalion Task Force (Satgas Yonif) Raider 323/White Buaya Kostrad, under the HABEMA Operations Command in Papua, has once again demonstrated its dedication to fostering unity and welfare among the people of Papua. As part of the RI-PNG Mobile Border Security Operation in Puncak Regency, Central Papua Province, these soldiers ventured into the remote Yegerbaga Village in Ilaga District to deliver vital assistance and joy to the local community.

On Friday (January 31, 2025), the brave Task Force soldiers brought much-needed health services, distributed food supplies, and even provided sports equipment to the Yegerbaga residents. This noble initiative, which highlights the TNI's commitment to its people, was warmly received, as evident from the joyful smiles of children and the gratitude expressed by the villagers.

Task Force Pasiter Letda Chk Dani Gunawan emphasized the importance of being present and engaged with the local community. "Health is the most valuable asset we have. Through this activity, we aim to support the community's welfare while building strong bonds of unity and mutual trust," he stated.

The significance of the event was echoed by Mr. Yulianus Mom, a respected community leader in Yegerbaga Village. "This moment is incredibly meaningful for us. We are deeply grateful for the attention and care shown by the TNI. We hope that initiatives like this will continue to enrich the lives of our community," he shared.

This social service activity not only delivered essential support but also fostered a sense of togetherness, reinforcing the strong connection between the TNI and the people it serves. The smiles of the children, the gratitude of the elders, and the visible relief on the faces of the villagers speak volumes about the impact of such initiatives.

Major General TNI Lucky Avianto, Commander of HABEMA Operations, praised the efforts of Task Force Yonif 323 Kostrad. "This initiative reflects the TNI's deep concern and commitment to assisting the community with their basic needs, thereby contributing to the broader mission of accelerating development in Papua," he stated upon receiving the report.

Through acts of kindness like this, the TNI continues to solidify its role as not just a protector of security but also a partner in progress and prosperity for the people of Papua.
